

FAIC

ROSARIO, ARG 2025

OCTOBER 29 TO NOVEMBER 1

**4TH FRANCO ARGENTINE
IMMUNOLOGY CONGRESS
LXXIII SAI CONGRESS**

**EXTENDED
PRELIMINAR
PROGRAM**

Sociedad
Argentina de
Inmunología

CONICET

ROSARIO

FCM Facultad de Ciencias
Médicas • UNR

Wednesday, October 29

Location: Espacio Cultural Universitario (ECU)

12.00 a 13.30 h	Accreditations	
15.00 a 16.30 h	Early Career Researchers Session 1: Luciano D’Attilio (IDICER) Maria Belén Vecchioni (INBIRS) Soledad Gori (IQUIBICEN) Sofia Noli Truant (IDEHU) Renata Curchiarelo (IIFP)	
16.30 h	Coffee Break	
17.00 a 18.30 h	Session 1: Immunotherapy and Precision Medicine Jose Cohen (Inst. MONDOR, France) D38 Blockade to Controls GVHD: Clinical Relevance in Humans and Preclinical Validation in Mice Eduardo Chuluyán (CEFYO) Bioartificial Platforms: Bridging Immunology and Precision Medicine Joshua Waterfall (Inst. CURIE, France) Cryptic transcripts as a source of non-canonical tumor antigens	
		Chair: Norberto Zwirner (IBYME)
18.30 h	Coffee Break	
19.00 a 20.30 h	Keynote Lecture Sebastián Amigorena (Inst. CURIE, France) mRNA splicing generates tumor-specific antigens and new protein isoforms	Chairs: Eliane Piaggio (Inst. CURIE, France) Ana R Perez (IDICER)
20.30 a 21.30 h	Opening Ceremony and Welcome Cocktail (ECU)	

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

08.30 a 10.00 h	ROOM 1	Early Career Researchers Session 2: Ileana Moreira (Hosp. Gutierrez) Lucía Boffelli (CIBICI) Ada Blidner (IBYME) Gonzalo Acevedo (UCTHP-CONICET-Hosp. El Calafate)	
	ROOM 2	Oral Session 1 (6 speakers - 10 min each + 5 min for questions)	
10.00 h	Coffee Break		
10.30 a 12.00 h	ROOM 1	Session 2: B-Lymphocytes and Humoral Immunity Virginia Rivero (CIBICI): Age-associated B cells: from aging to autoimmunity Pascal Poignard (Univ. Grenoble Alpes, France): Monoclonal antibodies in the fight against infectious diseases: from therapeutic agents to tools for antigen discovery and vaccine design	Chairs: Silvia Di Genaro (IMIBIO-SL) Adriana Gruppi (CIBICI)
	ROOM 2	Session 3: Inborn Errors of Immunity Frédéric Rieux-Laucat (Imagine Institute, France): New monigenic predisposition to autoimmunity Virginia Paolini (AINCA): Autoimmune lymphoproliferative disease: the importance of seeing the whole picture Carolina Bouso (Chile, AINCA): Complement system and Immune dysregulation: the piece that completes the puzzle	Chairs: Miguel Galicchio (Hosp. Vilela - AINCA)

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

12.00 a 13.30 h	ROOM 1	Talks with Experts - I: Real-World Research: Translating Science into Impact Norberto Zwirner (IBYME) Marta Toscano (Hosp.Oñativia, Salta)	
	ROOM 2	Sponsored Talk: The Use of Spectral Flow Cytometry to Characterize Human Memory T Cells. SciTec Boscience. Diana Bonilla (Colombia)	
13.30 a 15.00 h	ROOM 1	Poster Session 1	ROOM 2 Poster Session 2
15.00 a 16.30 h	ROOM 1	Session 4: Neuro-immuno-endocrinology and Immuno-Metabolism Marco Aurélio Ramirez Vinolo (Inst. Biología, Campinas, Brazil): Exploring the molecular mechanisms of intestinal Host-Microbiota interactions Carolina Jancic (IMEX): $\gamma\delta$ T cells in glioblastoma: Immune response and tumor-derived components Chairs: Oscar Bottasso (IDICER) Luciano D’Attilio (IDICER)	
	ROOM 2	Session 5: Translational Immunology Eliane Piaggio (Inst. CURIE, France): Single Cell Profiling of Tregs: Implications for Tumor Immunity and Cancer Therapy Álvaro Lladser (Fund. Ciencia y Vida, Chile): Dissecting the crossroads of circulating and tissue-resident T cells in solid tumors Santiago Zelenay (Manchester Institute, UK): The dual role of inflammation in cancer immunity Chairs: Eduardo Chuluyán (CEFYO) Mariana Maccioni (CIBICI)	

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

16.30 h	Coffee Break	
17.00 a 18.30 h	ROOM 1	Session 6: Infection and Immunity Philippe Benaroch (Inst. CURIE, France): Molecular coupling of constitutive fluid uptake and intrinsic antiviral resistance in human macrophages Virginia Pasquinelli (UNNOBA): From C. difficile to M. tuberculosis infection: a gut lung tale Chairs: Ana Ceballos (INBIRS) Florencia Quiroga (INBIRS)
	ROOM 2	Session 7: Vaccines Carolina Veaute (LIE-UNL): The Role of Adjuvants in Modulating Immunity Using Staphylococcus aureus Proteins as a Model Daniela Hozbor (IBBM): Development of vaccine prototypes for resurgent diseases: lessons learned and consolidation of a pertussis platform based on OMVs Chairs: Malchiodi Emilio (IDEHU) Andres Alloatti (IDICER)
19.00 a 21.00 h	ROOM 1	SAI Lifetime Achievement Awards SAI Assembly

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

08.30 a 10.00 h	ROOM 1	Early Career Researchers Session 3: Adrián Friedrich (IBYME) Eva Vélez (CERELA) Samantha Funes (IMIBIO-SL) Karina Pasquevich (IIBIO-UNSaM)	
	ROOM 2	Oral Session 2 (6 speakers - 10 min each + 5 min for questions)	
10.00 h	Coffee Break		
10.30 a 12.00 h	ROOM 1	Session 8: Innate Immunity Julie Helft (Inst. Cochin, France): Macrophages and T cell immunity in Cancer Pierre GUERMONPREZ (Inst. Pasteur, France): Dendritic cells infiltrating tumors: challenges and opportunities Analia Trevani (IMEX): Neutrophil extracellular vesicles in Hemolytic Uremic Syndrome development Chairs: Guillermo Giambartolomei (IMPAM) Juliana Idoyaga (La Jolla, EEUU)	
	ROOM 2	Session 9: Host-Pathogen Interactions Diana Hansen (Monash University, Australia): Systems immunology approaches for the identification of biomarkers of susceptibility and immunity to severe dengue fever Paula Barrionuevo (IMEX): MHC-I down-modulation by bacterial RNA: from an immune evasion strategy to a potential therapeutic approach Chairs: Cinthia Stempin (CIBICI) Silvia Cazorla (CERELA)	

Chairs:
Guillermo Giambartolomei (IMPAM)
Juliana Idoyaga (La Jolla, EEUU)

Chairs:
Cinthia Stempin (CIBICI)
Silvia Cazorla (CERELA)

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

12.00 a 13.30 h	ROOM 1	Talks with Experts - II: Real-World Research: Translating Science into Impact Luciana Balboa (INBIRS) / Juliana Cassataro (IIBIO-UNSaM)	
	ROOM 2	Immunopaedia: Opportunities and Career Development for young immunologists Alejandra Urioste	
13.30 a 15.00 h	ROOM 1	Poster Session 3	ROOM 2 Poster Session 4
15.00 a 16.30 h	ROOM 1	Session 10: Onco Immunology Mariana Salatino (IBYME): Impact of endocrine therapy on immunotherapy response in luminal breast cancer Marianne Burbage (Inst. CURIE, France): Targeting the splicing machinery to modulate tumour immunogenicity Juliana Idoyaga (UC San Diego, La Jolla, EEUU): Dendritic cell heterogeneity: subsets and cell-fate-switching	
	ROOM 2	Session 11: Clinical immunology Olivier Boyer (PAn'THER, University of Rouen, France): Immune-mediated necrotizing myopathies from mice to humans and vice versa Belén Almejún (IQUIBICEN): Diagnosing the Undiagnosed: New Variants and Functional Genomics in Inborn Errors of Immunity Helen Salmon (Inst. CURIE, France): Cancer-associated fibroblasts and control of T cell infiltration in lung and head & neck cancer	

Chairs:
Romina Gamberale (IMEX)
Nicolás Nuñez (CIBICI)

Chairs:
Ileana Moreira (Hosp. Gutierrez)
Alejandra Ensinnck (Serv. InmunoHematología - FBioyF -UNR)

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

16.30 h	Coffee Break		
17.00 a 18.30 h	ROOM 1	Session 12: Mucosal and Reproductive Immunology Denise Moraes da Fonseca (USP, Brazil): Infection-Induced Treg Dysfunction: A Double-Edged Sword for Tissue-specific Immunity Karina Mariño (IBYME): An Altered Glycome Shapes IgA B-Cell Responses and Gut Immunity During Intestinal Inflammation Damian Muzzio (Greifswald University, Germany): How Immune Cells Adapt to Pregnancy and the Microbial Landscap Chairs: Rossana Ramhost (IQUIBICEN) Ruben Motrich (CIBICI) Renata Cucciarello (IIFP)	
	ROOM 2	Session 13: Adaptive Immunity Luis Graca (Lisbon Univ. Portugal): Regulation of humoral responses in human autoimmunity Eva Acosta Rodríguez (CIBICI): A Tale of Changing Personalities: Treg Cell Heterogeneity and Its Stage-Dependent Impact in T. cruzi Infection Chairs: O. Bottasso (IDICER) Karina Gómez (INGEBI)	
18.30 a 19.30 h	Trends in Promotion Policies for Scientific Careers Luciana Balboa (INBIRS) Eva Acosta Rodríguez (CIBICI) Chairs: Natalia Santucci		
21.00 h	Farewell		

Saturday, November 1

Location: Faculty of Medical Sciences - National University of Rosario

10.30 a
12.00 h

Awards and Closing Ceremony

SATZ Award

Clinical Research Award

Best Poster Award

Chairs:
Soledad Gori (IQUIBICEN)
Ariana Díaz (IDICER)
Cecilia Vila (IDEHU)

15.00 a
16.30 h

Lunch & Turism Options
